New Interstate Passport® chart

- Added Interstate Passport® chart

Updated 3/30/2022

Interstate Passport®

The Interstate Passport® is a general education plan designed to meet the lower-division general education requirements at all participating institutions. (For a complete list, visit *http://interstatepassport.wiche.edu/transfer/.*)

Students wishing to transfer to a participating institution* may use the Interstate Passport® in lieu of the lower-division general education requirements at that institution when they transfer. This is true even when the requirements at that institution are different from those where the Passport was earned. Note: Some participating institutions require additional general education coursework for graduation, but this can be taken after transferring.

*The California State University and University of California do not currently accept the Passport. Instead, they require satisfying the appropriate CSUGE or IGETC plan prior to transferring. In the LACCD, however, these patterns overlap the Passport. Thus, LACCD students who complete one of them have also completed the Passport.

The Interstate Passport® can be earned by passing with a grade of C or P or higher a minimum of 30 units in courses approved to meet the Interstate Passport® learning outcomes for each of the nine knowledge and skills areas. A course may be used any number of times to meet the outcomes of any knowledge and skills area for which it is approved. A list of such courses and requirements can be found in the College Catalog and website.

Note: External examinations (AP, IB, CLEP) may be applied to Interstate Passport® areas per LACCD Administrative Procedures, CSU policies and IGETC standards.

Upon completing the requirements of the Passport at the LACCD, a note will appear on your transcript. You will also be added to the Interstate Passport® database so that participating institutions can apply your Passport credit, should you choose to transfer to one of them.

Visit the *Transfer Center* website for more information.

Earn a grade of C or P or higher in a minimum of 30 units total of courses meeting each area below, including at least one course from area P7A or P7B that includes a lab component. A course may be used any number of times to meet any area under which it is listed. Courses meeting Passport areas at other LACCD colleges may be applied as at those colleges or in the corresponding area at this college, even if they are not offered at this college or applied to the same area(s) as at this college. Note: All Passport requirements are met upon completion of the CSU GE, CSU GE for STEM, IGETC, or IGETC for STEM pattern.
