

ACCESS TO ZOOM IN CANVAS

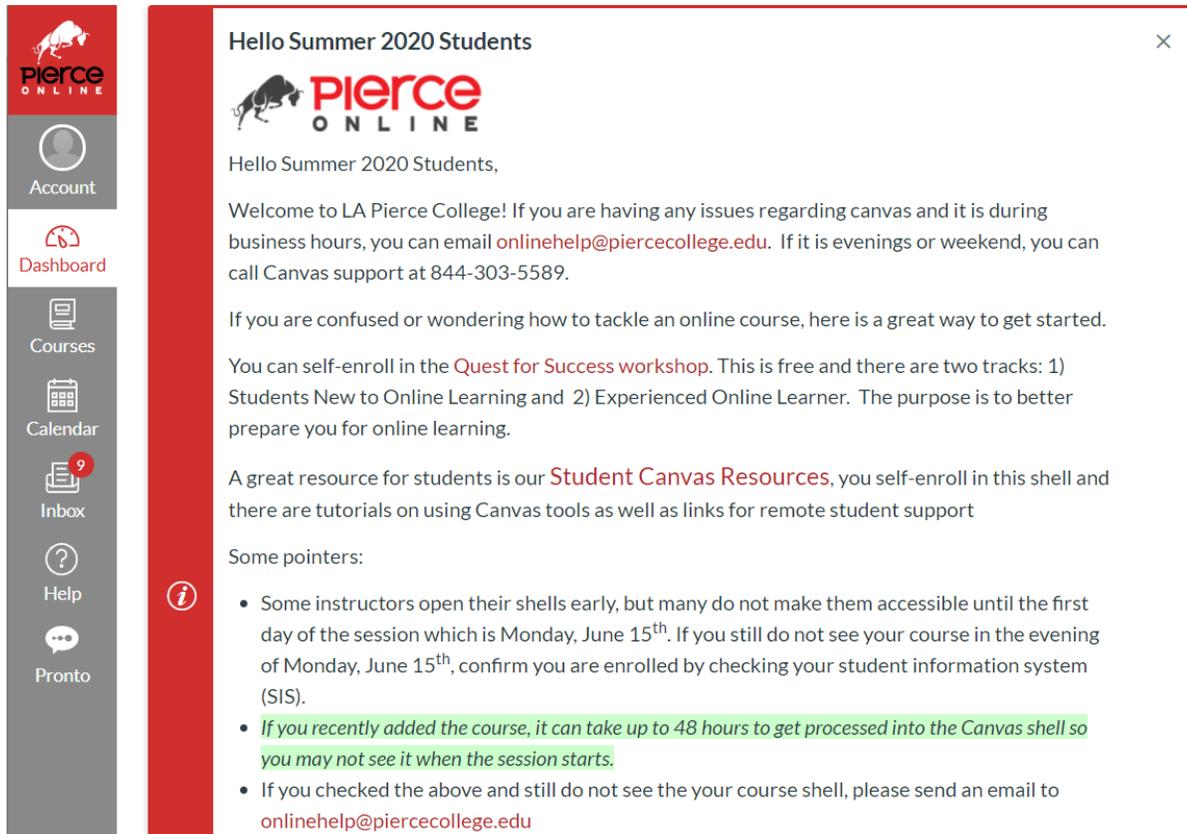

1. In Google Chrome or Firefox browser, type **piercecollege.edu**. Click on Canvas.

2. At sign in screen, type in Student ID, Password, then click **Sign In**.

3. At Dashboard window, you will see a message to students. Scroll down below that to see your class tiles. If you recently registered/added a class, it can take up to 48 hours for Canvas to process into your Canvas shell and appear on your Dashboard and Courses.

The screenshot shows the Canvas dashboard interface. On the left is a vertical navigation menu with icons for Account, Dashboard (highlighted in red), Courses, Calendar, Inbox (with a red notification badge showing '9'), Help, and Pronto. The main content area is titled 'Hello Summer 2020 Students' and features the Pierce Online logo. The message text is as follows:

Hello Summer 2020 Students,

Welcome to LA Pierce College! If you are having any issues regarding canvas and it is during business hours, you can email onlinehelp@piercecollege.edu. If it is evenings or weekend, you can call Canvas support at 844-303-5589.

If you are confused or wondering how to tackle an online course, here is a great way to get started.

You can self-enroll in the [Quest for Success workshop](#). This is free and there are two tracks: 1) Students New to Online Learning and 2) Experienced Online Learner. The purpose is to better prepare you for online learning.

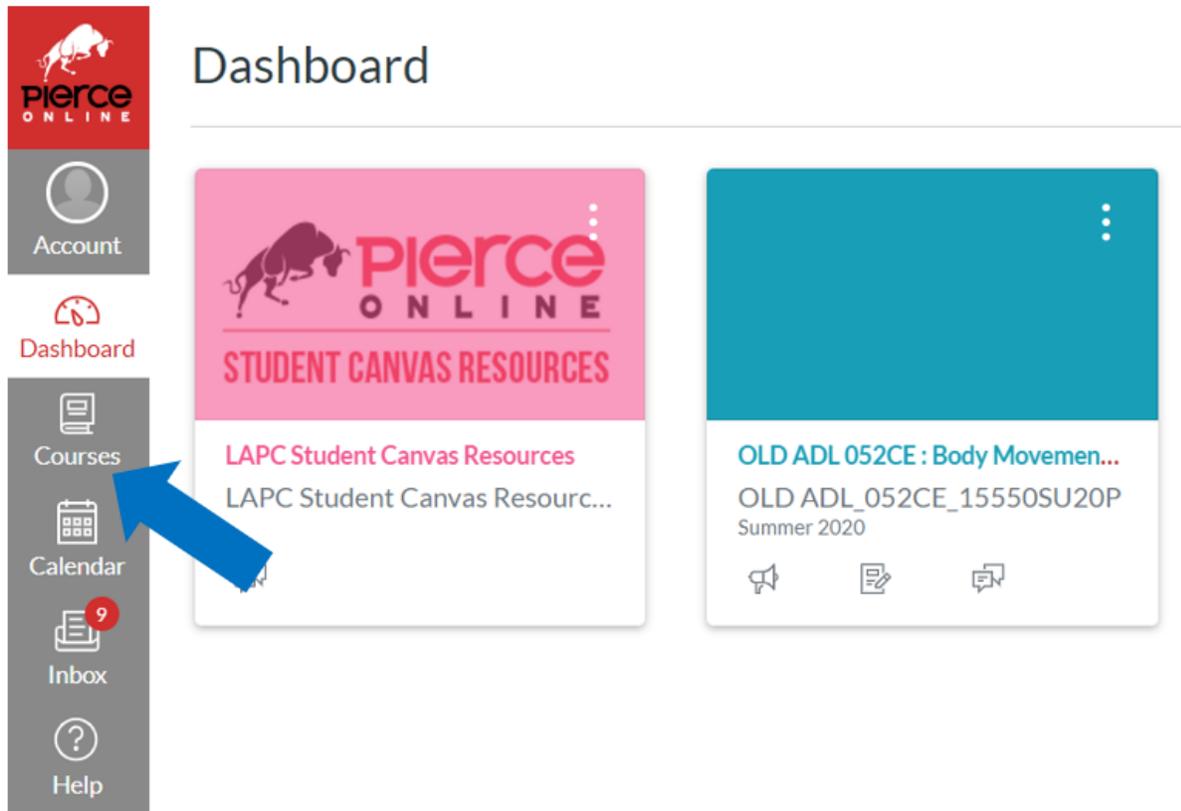

A great resource for students is our [Student Canvas Resources](#), you self-enroll in this shell and there are tutorials on using Canvas tools as well as links for remote student support

Some pointers:

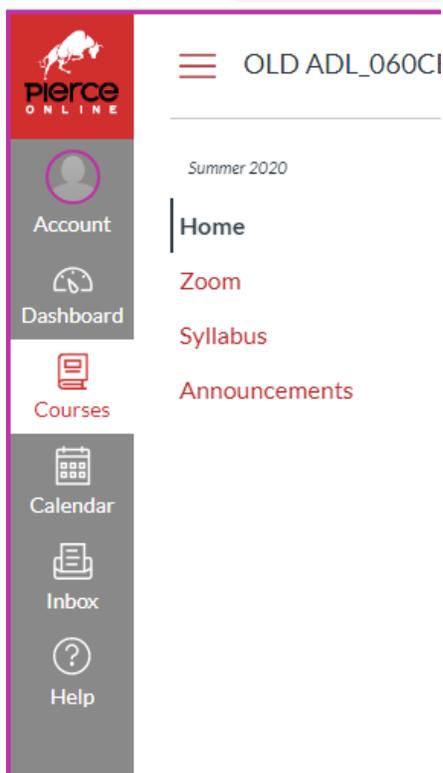

- Some instructors open their shells early, but many do not make them accessible until the first day of the session which is Monday, June 15th. If you still do not see your course in the evening of Monday, June 15th, confirm you are enrolled by checking your student information system (SIS).
- *If you recently added the course, it can take up to 48 hours to get processed into the Canvas shell so you may not see it when the session starts.*
- If you checked the above and still do not see the your course shell, please send an email to onlinehelp@piercecollege.edu

4. Click on the tile for the class you want to open. You can click on the little bullhorn symbol for Announcements.

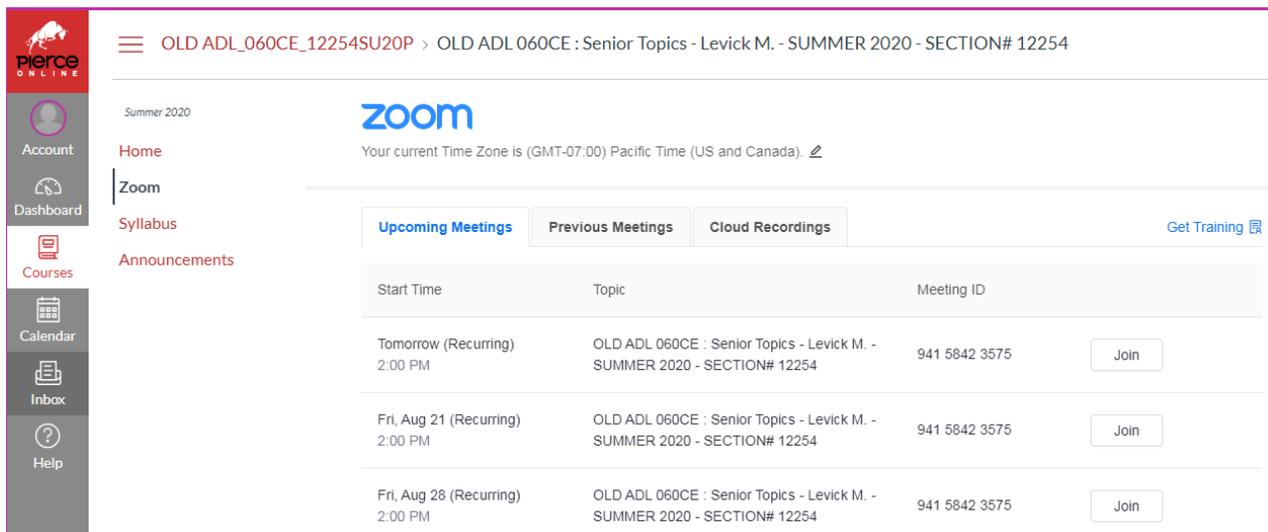

NOTE: If you do not see the class tile on your Dashboard and it has been more than 48 hours since you registered/added the class, click on Courses from the left menu. Click on the class number from the list to open.

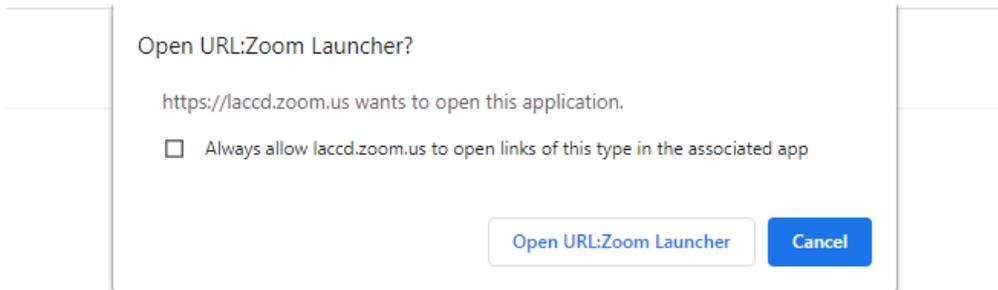

5. Here is where instructions will vary. Some teachers have sent a Zoom link in Announcements. Others have sent a Zoom link in your Inbox to the left. Others will have you click on **Zoom** under the word Home, from the list of links in red.

6. At **Upcoming Meetings**, click on the Join button.

7. Click on **Open URL:Zoom LAUNCHER**

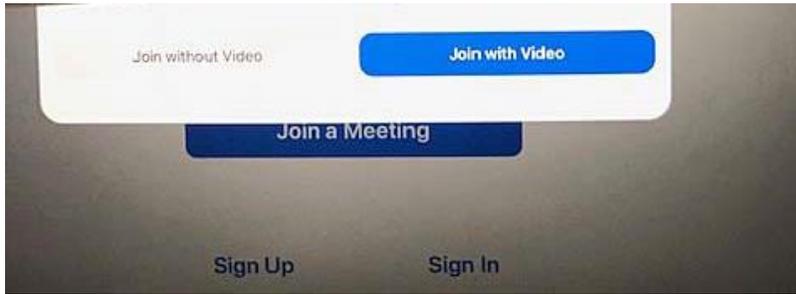

When system dialog prompts, click **Open Zoom Meetings**.

If you have Zoom Client installed, [launch meeting](#). Otherwise, [download and run Zoom](#).

If you cannot download or run the application, [join from your browser](#).

8. Click on **Join with Video**.

9. Click on **Join with Computer Audio**.
